Professional Summary

Front-End Architect and UX/UI Engineer with 5+ years of full-time experience delivering large-scale, production web platforms for enterprise and highly regulated clients. Specialized in modern frontend architecture (Vue.js ecosystem), accessibility-first development, and translating complex UX designs into scalable, performant builds. Known internally as a Vue.js specialist and technical lead, frequently owning entire frontend systems end-to-end and working across frontend and backend layers (within an ASP.NET Core stack) to reduce delivery overhead and increase team velocity.

Core Technical Skills

Frontend: HTML, Pug, CSS, Sass/SCSS, Tailwind, Vanilla JS, TypeScript, Vue JS, Vuex, Pinia, React JS, Blazor
Build & Tooling: Node.js, NPM, Yarn, Vite, Webpack, Git, CI-friendly build pipelines
Accessibility: WCAG 2.x, WAI-ARIA, semantic HTML, accessible component architecture
CMS & Backend: ASP.NET Core, C#, CSHTML, MVC patterns, API controllers, Kentico 13, Kentico Xperience, Xperience by Kentico
Collaboration: Jira, UX-to-dev translation, client technical coordination, solution architecture alignment
AI & Productivity: GitHub Copilot, Claude Code, ChatGPT & Codex, workflow automation

Professional Experience

BlueModus, Inc. — Denver, CO (Remote)

Senior UX/UI Developer — Nov 2021 – Feb 2026
UX/UI Developer — Nov 2020 – Nov 2021

Senior frontend engineer contributing to complex, CMS-driven web platforms for enterprise, financial, healthcare, education, and logistics clients. Promoted to Senior UX/UI Developer after one year based on technical depth, ownership, and cross-team impact.

Key Contributions & Achievements

- Architected and built the complete frontend for **six distinct Texas Association of School Boards websites**, delivering consistent UX patterns across multiple properties
- Designed and implemented the **CaroWise application ecosystem** using **Vue.js**, consisting of **8 interconnected Vue applications** that enable CaroTrans customers to view bookings, analyze shipping costs, and create new global shipments
- Personally contributed to the development and launch of **35+ client websites**, spanning finance, healthcare, education, logistics, and enterprise sectors
- Led accessibility audits and remediation efforts that brought **dozens of websites into WCAG 2.0**

compliance, using tools such as Lighthouse and WAVE and implementing semantic, ARIA-aware component patterns

- ➢ Acted as an internal Vue.js subject-matter expert, regularly debugging complex state, reactivity, and performance issues across active client projects
- ➢ Owned and maintained frontend build pipelines **(Node, Vite, NPM/Yarn)**, troubleshooting and modernizing tooling to improve stability and developer experience
- ➢ Worked directly with UX designers and Solution Leads to align **Figma designs**, content models, and technical constraints prior to implementation, reducing rework and delivery risk
- ➢ Collaborated directly with client IT and engineering teams to integrate third-party tools, APIs, and enterprise systems into frontend builds
- ➢ Expanded backend responsibilities within **ASP.NET Core and Kentico** ecosystems, as well as developing Blazor-based server-side web apps, enabling **vertically sliced feature delivery** (frontend + backend) that reduced cross-team handoff overhead and saved hours per feature
- ➢ Built and maintained CMS page types, widgets, templates, and underlying C# models while supporting API controller enhancements for frontend data needs
- ➢ Leveraged AI-assisted development tools **(GitHub Copilot, Claude coding agents)** to accelerate implementation and reduce repetitive engineering effort

Representative Clients

Ball Corporation · Texas Association of School Boards · Options Clearing Corporation · University of California San Diego (UCSD) · American Medical Group Association · Medical Group Management Association · Patterson Companies · PEMCO Mutual Insurance · Retail Industry Leaders Association · Lytx · United Community Bank · Advancial Credit Union · Truliant Federal Credit Union · Excite Credit Union · Blue Rhino Propane · Ferrellgas · Roehl Transportation · Sullair/Hitachi · Mainfreight · CaroTrans

Earlier Experience (Selected)

Freelance Web Development — Fort Collins, CO & Remote

Web Developer — Apr 2019 – Nov 2020

Delivered small-to-mid-sized websites for local businesses, focusing on foundational frontend development, accessibility fundamentals, and client communication. Experience provided early exposure to end-to-end delivery but represents a smaller portion of overall professional impact compared to enterprise work at BlueModus.

MarketPros Responsive Solutions — Atlanta, GA (Contract)

Web Developer — Jun 2020 – Sep 2020

Worked directly with clients to build and maintain eCommerce websites on the OpenCart CMS platform. This involved the development of custom features as well as bugfixes, predominantly utilizing JS and CSS.

Education

University of Colorado - Denver, CO - Graduated with Highest Honors May 2014

Bachelor of Arts in English, Minor in Mathematics — *Summa Cum Laude* with a final GPA of 3.86
